

Technical Textiles.  
Automotive  
Industry.

# Invisible Functionality.

With more than 90 years of experience, Jaeger manufactures products based on textile and synthetic components for a wide range of industrial applications. These products perform key functions within entire systems: reinforcing, sealing, coating, laminating, gluing and binding. We also develop individual solutions to customer requirements.

Customers from the automotive industry and their suppliers have extremely high requirements. Jaeger products comply with all safety standards and quality demands. Our product solutions, in many cases patented, support our customers with innovation, sustainability and cost-efficiency.

**visitec.** Our development centre in Wuppertal provides extensive technical facilities and fundamental know-how for product development.

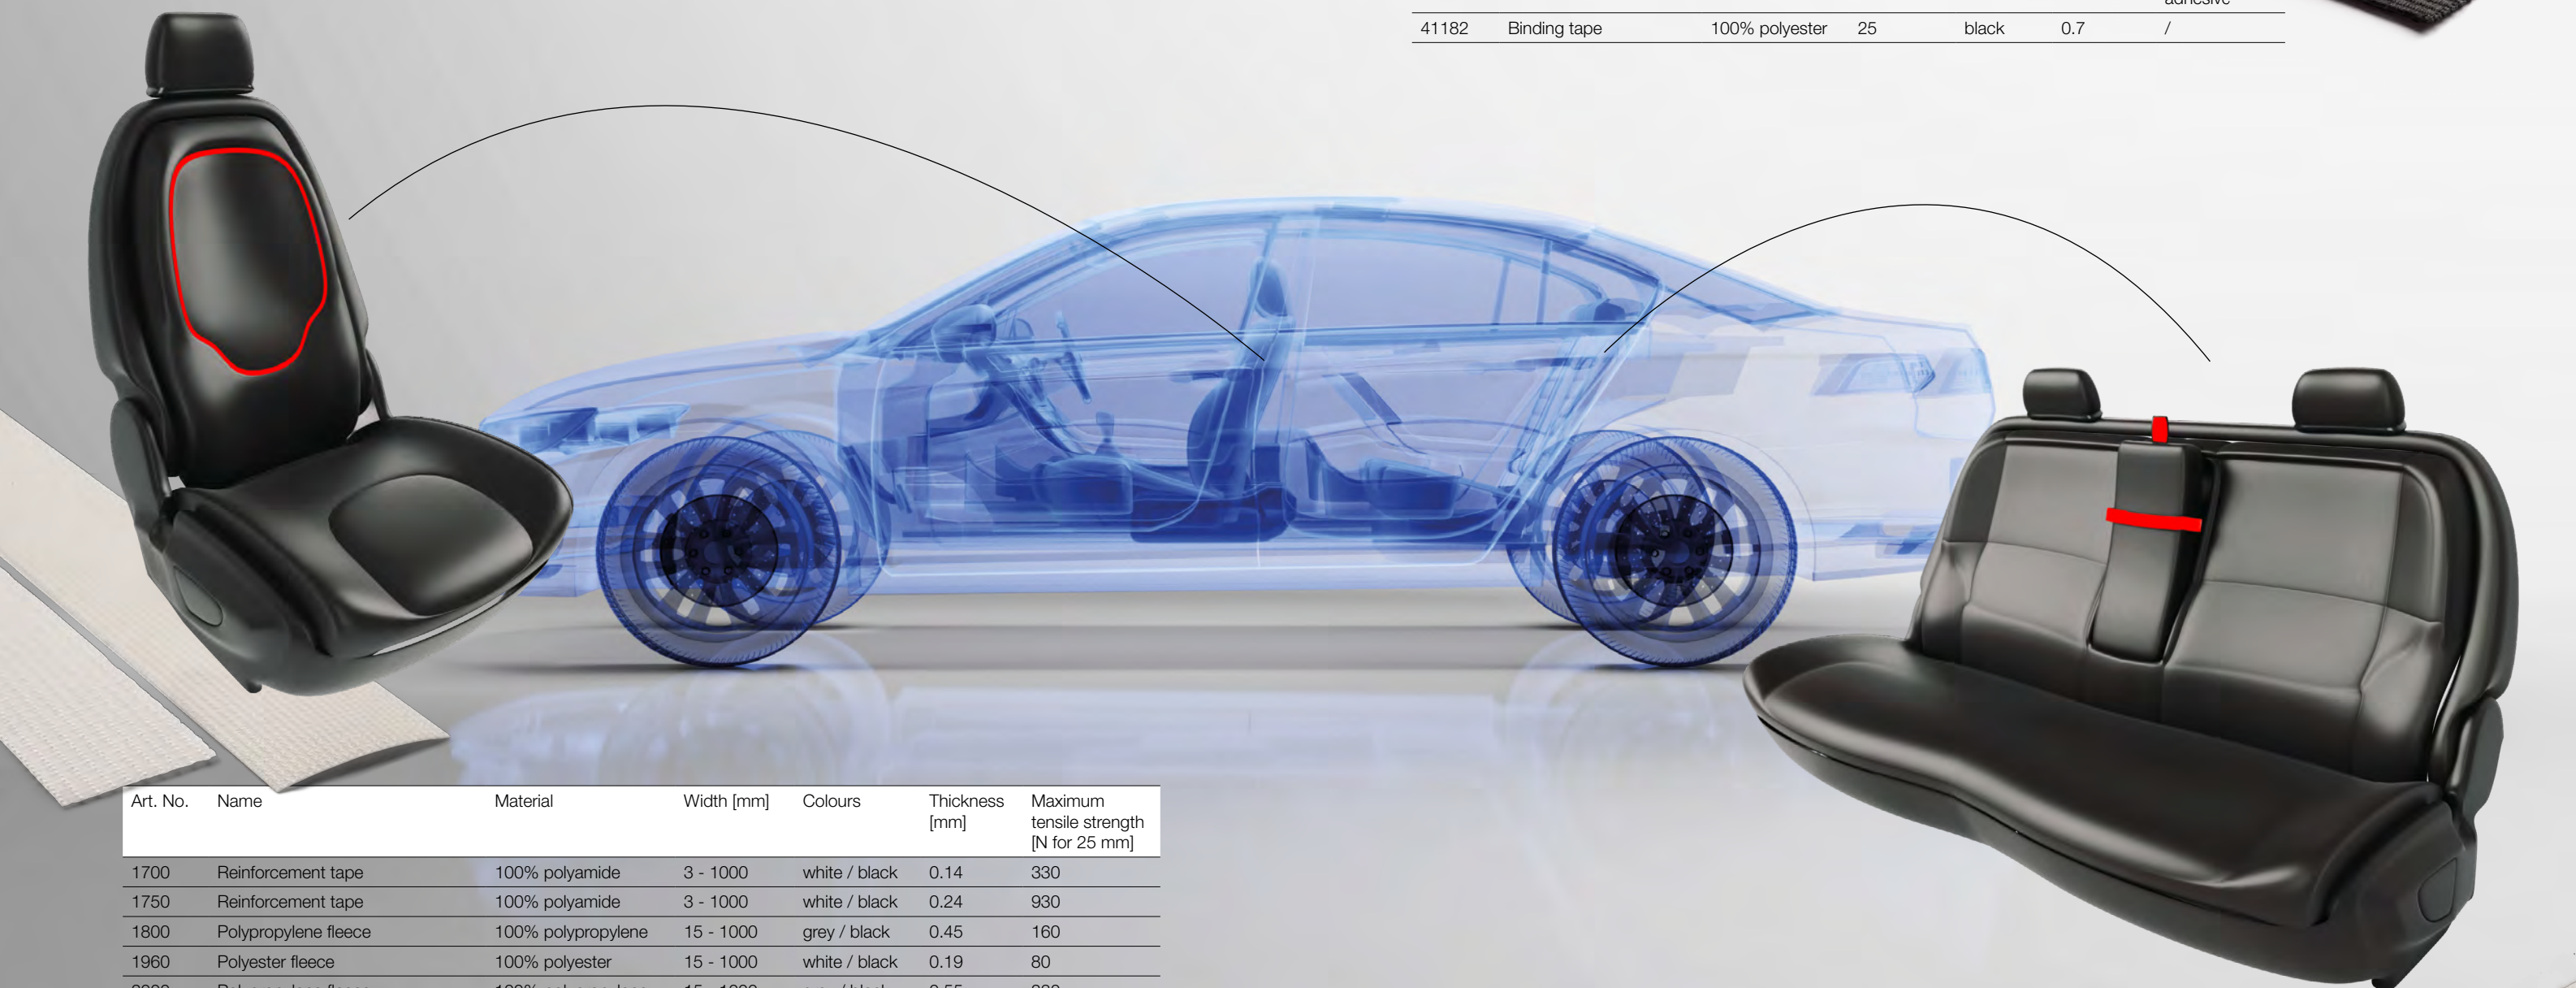

We have **production facilities** in Germany, Austria, Poland, India, and the USA. In addition, we are available to help you with many sales offices throughout the world.

# Reinforcement tapes. Binding and loop tapes. Friction tapes.

Jaeger produces a wide range of technical tapes for the automotive industry. Typical applications are loop reinforcing tapes, rear shelf tapes, seam reinforcements for seats and interiors etc. With our expertise in the field of technical textiles, Jaeger ideally meet the stringent requirements of the automotive industry.

Art. No.	Name	Material	Width [mm]	Colours	Thickness [mm]	Coating
27842	Ribbed tape	100% polyamide	10	black	0.5	Single-sided cold adhesive
41182	Binding tape	100% polyester	25	black	0.7	/

Art. No.	Name	Material	Width [mm]	Colours	Thickness [mm]	Maximum tensile strength [N for 25 mm]
1700	Reinforcement tape	100% polyamide	3 - 1000	white / black	0.14	330
1750	Reinforcement tape	100% polyamide	3 - 1000	white / black	0.24	930
1800	Polypropylene fleece	100% polypropylene	15 - 1000	grey / black	0.45	160
1960	Polyester fleece	100% polyester	15 - 1000	white / black	0.19	80
2000	Polypropylene fleece	100% polypropylene	15 - 1000	grey / black	0.55	230
3501	Ravel-proof reinforcement tape	100% polyamide	6 - 60	white / black	0.16	630
3623	Seam reinforcing tape	100% polyamide	2 - 2.75	white	0.44	270*
43520	Prong-proof reinforcing tape	100% polyamide	3 - 50	white	0.35	1500
49111	Prong-proof double-weave reinforcing tape	70% polyamide / 30% viscose	3 - 50	white / black	0.50	1060
57510	Reinforcing tape for the highest requirements	100% polyamide	25 (andere auf Anfrage)	white / black	0.35	1500
68950	Prong-proof reinforcing tape	100% Polyamid	3 - 50	schwarz	0,35	1500

\* Maximum tensile strength for 2 mm

Art. No.	Name	Material	Width [mm]	Colours	Thickness [mm]
1230	Self-adhesive seam rubbing down tape	60% polyester / 40% polyamide	10 - 1000	white / black	0.34
1231	Seam rubbing down tape	60% polyester / 40% polyamide	10 - 1000	white / black	0.34
27879	Edge-coated seam rubbing down tape	60% polyester / 40% polyamide	10 - 1000	white / black	0.34

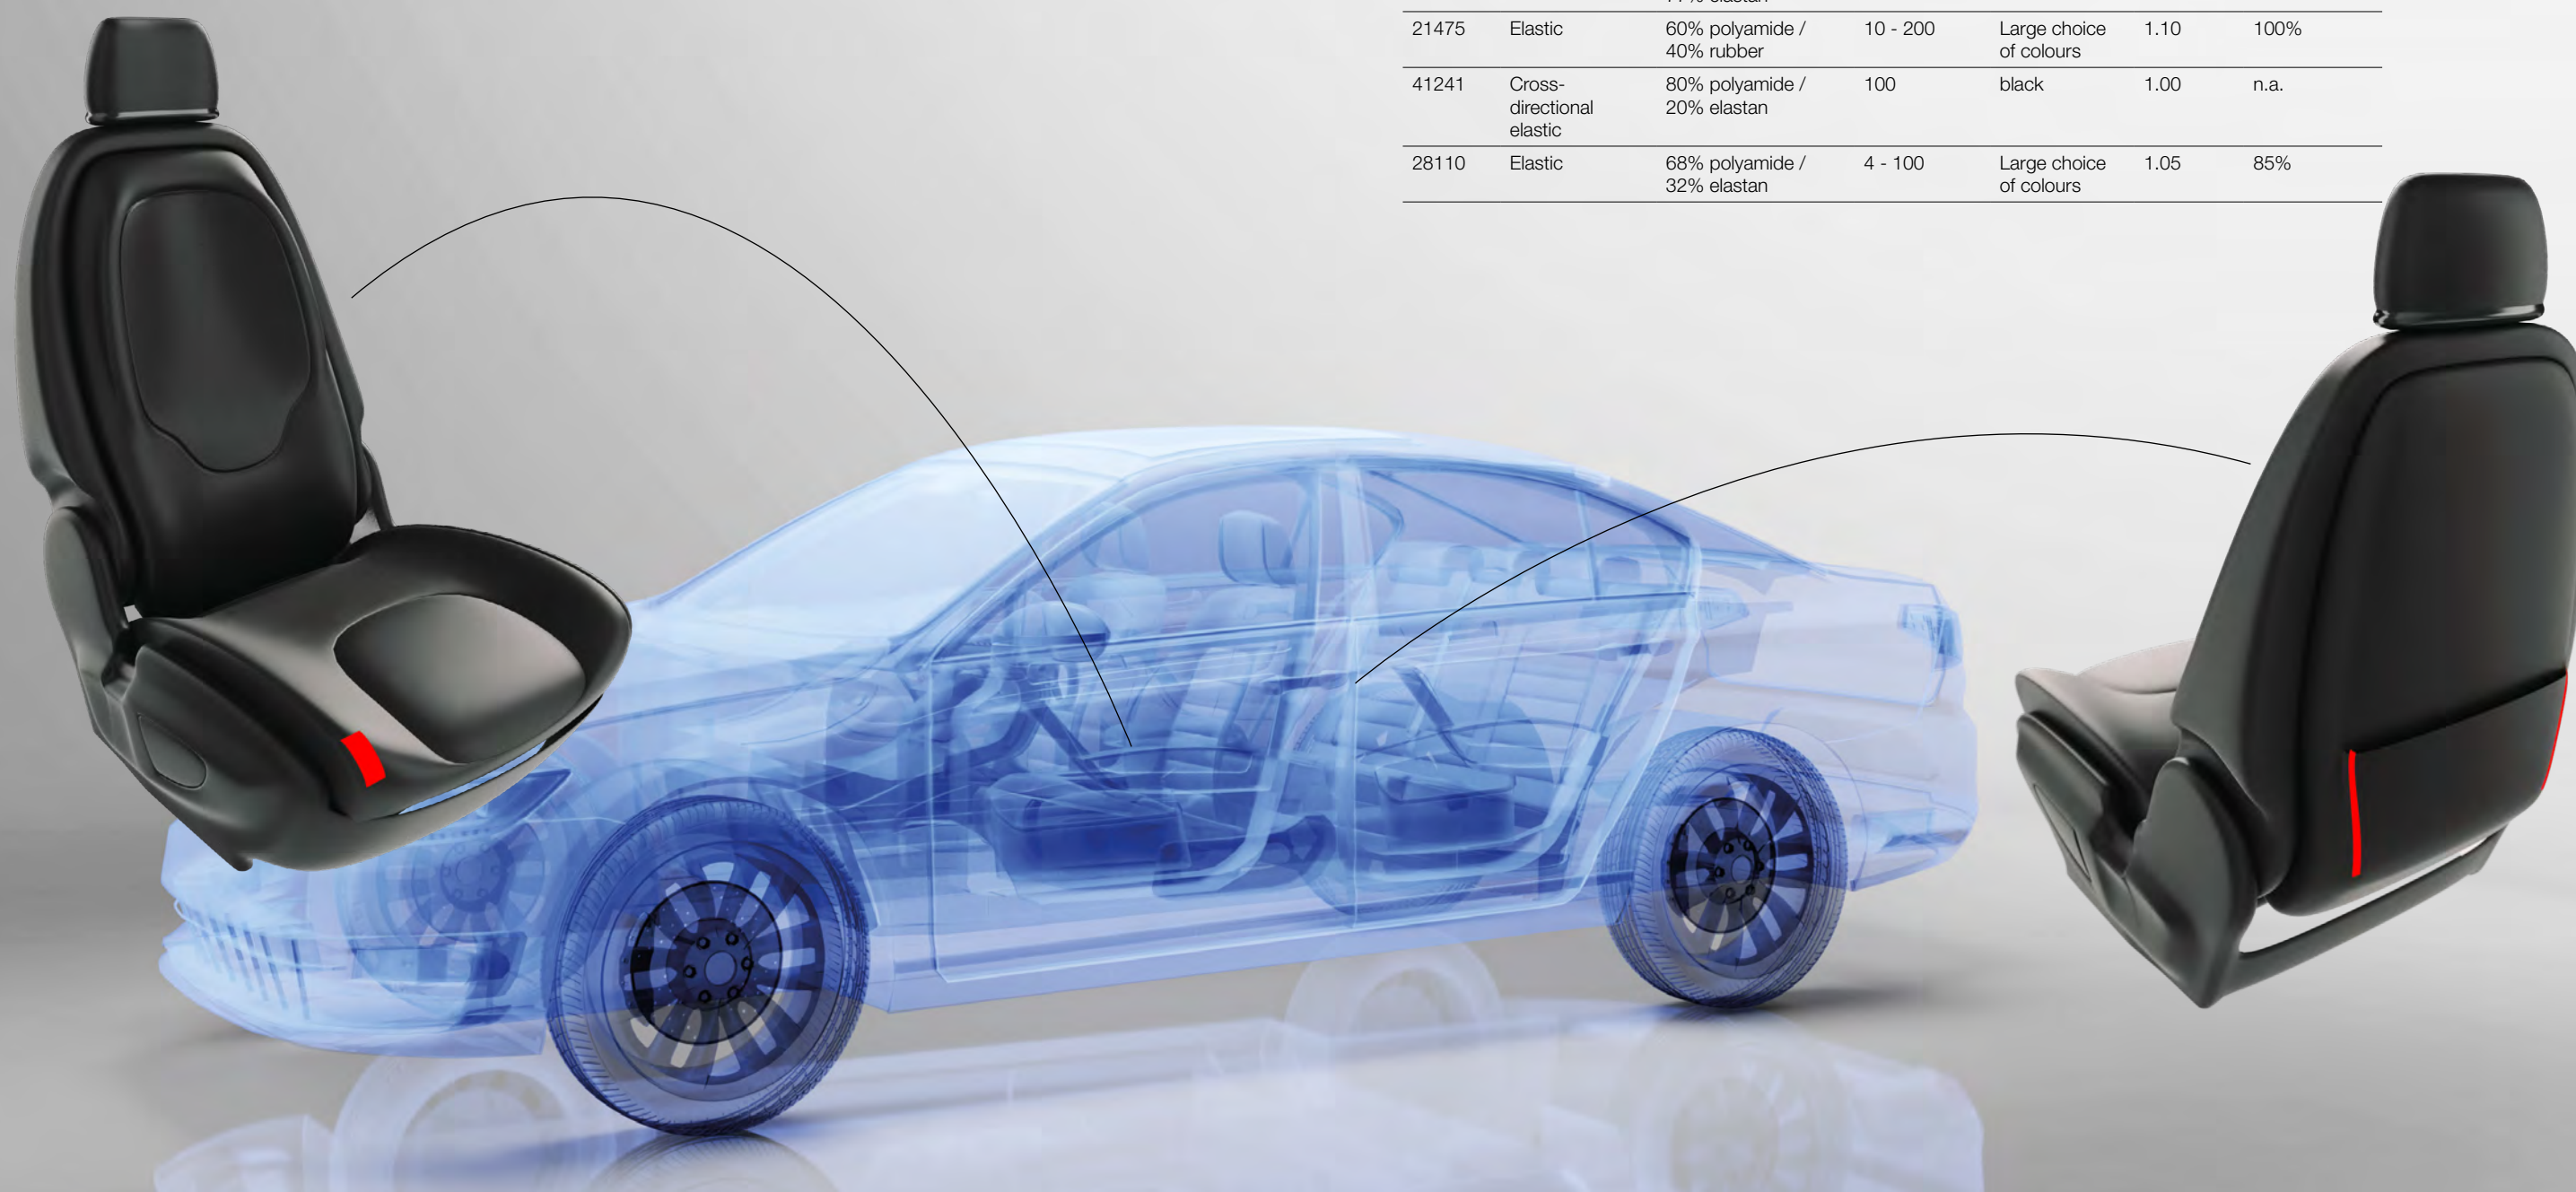

## Die-cut parts.

Jaeger manufactures high-quality die-cut parts in many shapes and sizes which are primarily processed for reinforcements in various seat covers. However other applications are also possible. Our wide range of products leaves nothing to be desired. Various reinforcing materials can be processed in almost any shape. Please contact us, we will be pleased to advise you.

## Elastics.

Jaeger elastics offer lasting quality, high functionality and meet a wide range of requirements. We have a wide selection of widths and colours. Through various finishing options e.g. flame-retardant finish, our elastics can cover many technical requirements. We are happy to develop special solutions according to your needs.

Art. No.	Name	Material	Width [mm]	Colours	Thickness [mm]	Useful extension
5998	Elastic	8% polyamide / 92% elasthan	3	black	0.70	100%
6015	Elastic	23% polyamide / 77% elasthan	4 - 14	weiß / black	0.75	100%
21475	Elastic	60% polyamide / 40% rubber	10 - 200	Large choice of colours	1.10	100%
41241	Cross-directional elastic	80% polyamide / 20% elasthan	100	black	1.00	n.a.
28110	Elastic	68% polyamide / 32% elasthan	4 - 100	Large choice of colours	1.05	85%

## Sealings.

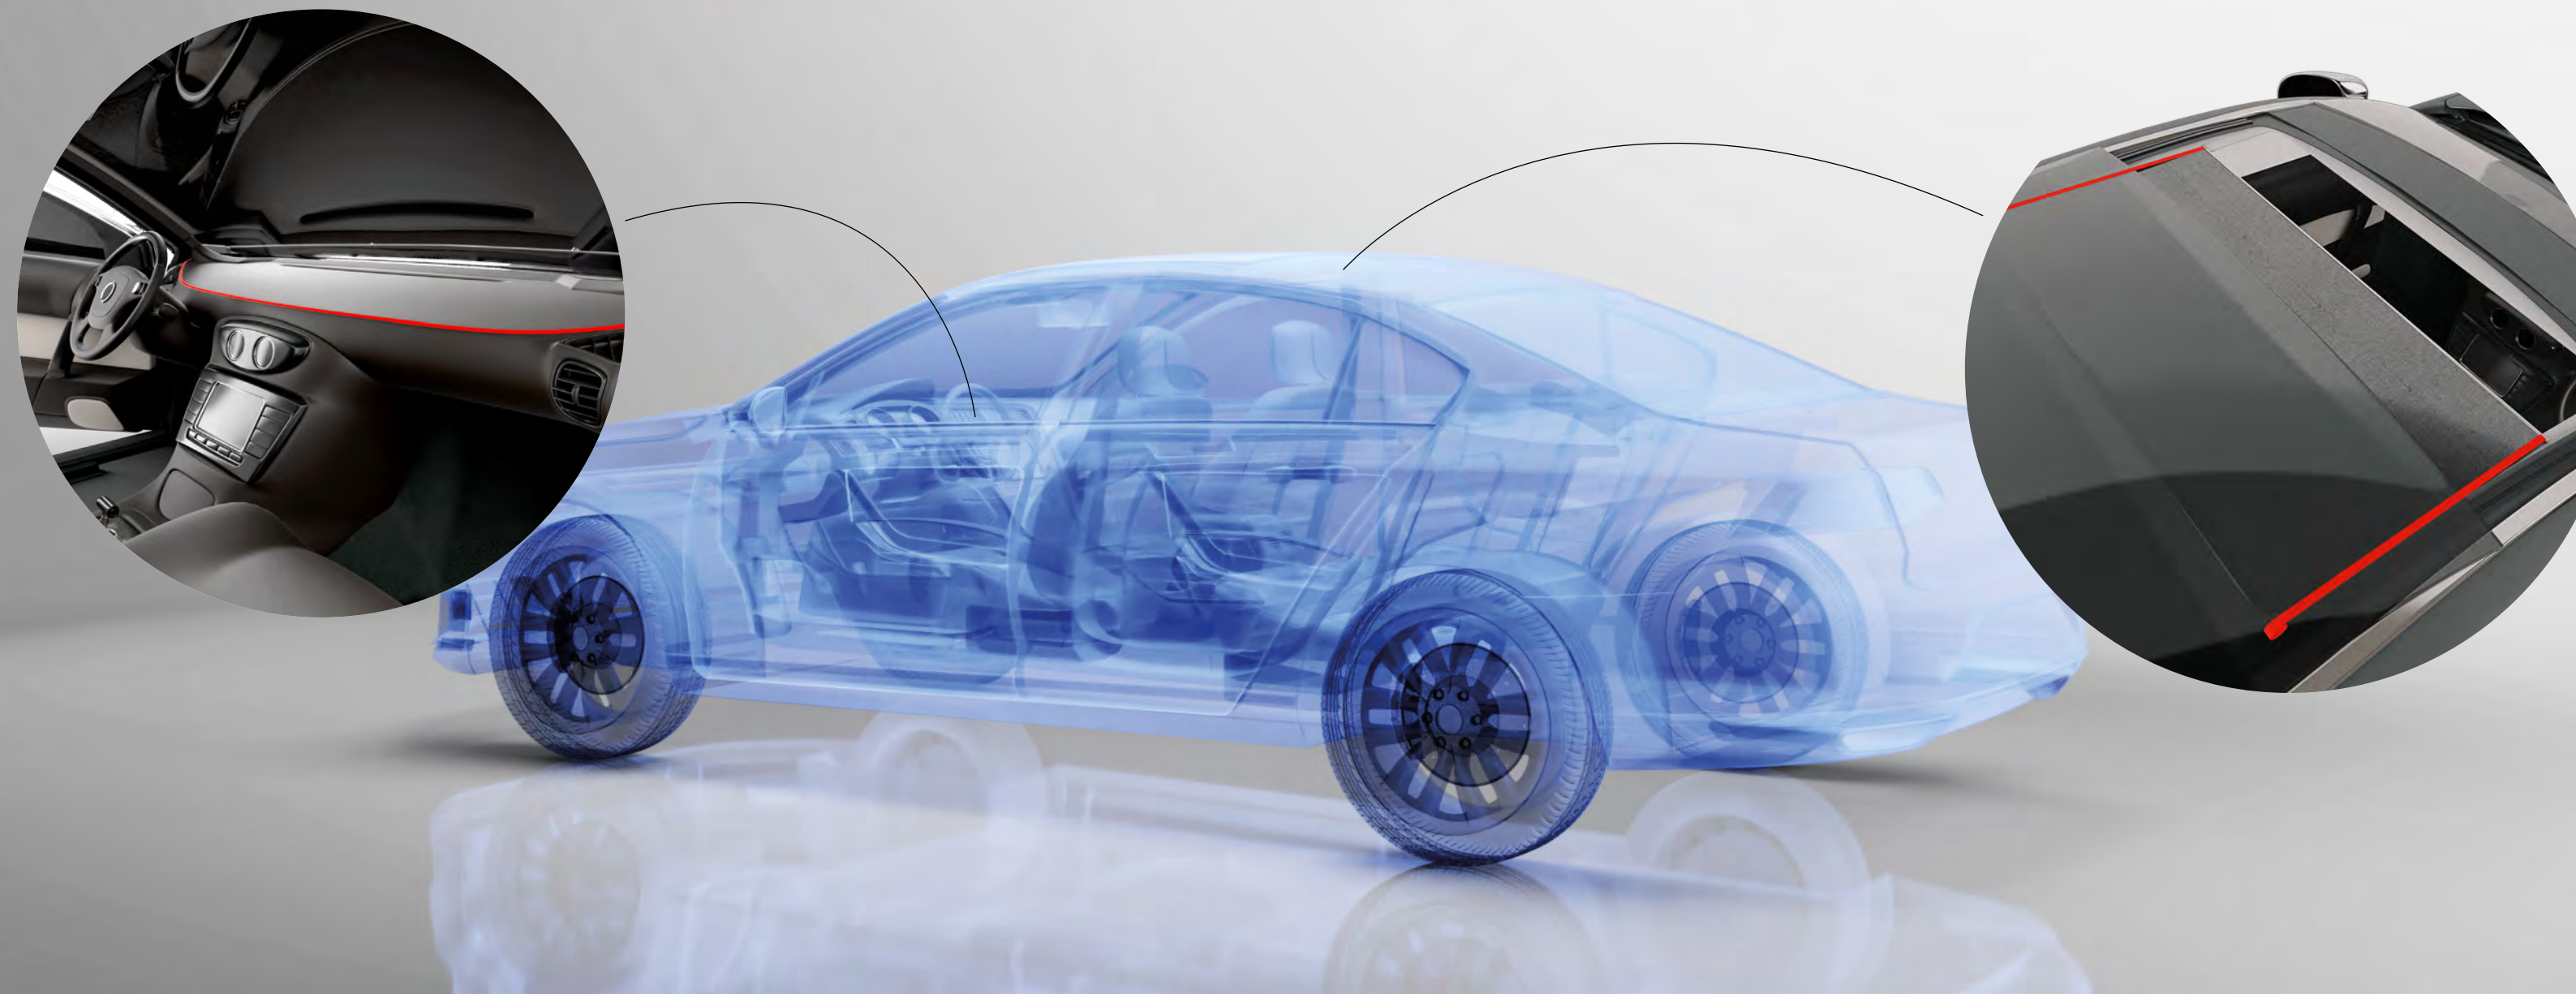

We provide seam sealing solutions for applications which need to be backfoamed or protected against external influences.  
Gladly we will develop special sealing solutions for you.

Art. No.	Name	Material	Width [mm]	Colours	Thickness [mm]
28270	Two-ply seam sealing tape	polyurethane	10 - 1000	white	0.11
27299	Three-ply seam sealing tape	polyester/ polyurethane	10 - 1000	white	0.35
41383	Three-ply seam sealing tape	polyester/ polyurethane	10 - 1000	white	0.45

## Special solutions.

Automotive interior designs often require special solutions. We have comprehensive experience in developing and manufacturing specific solutions for these complex designs and support you from the generation of new ideas up to the implementation of special products.

Art. No.	Name	Material	Width [mm]	Colours	Thickness [mm]
28295	Anti-squeak tape	100% polyester	20 (other on request)	black	1.80
27960	Hollow fabric	100% polyester	25	white	0.80
41015	Lacing element narrow-wide	98% polyester / 2% polyamide	various widths possible	black	
EA 5622	Y-tape	100% polyester	40 (other on request)	black	
EA 5602	Button-hole cord	100% polyamide	3	white	

# Technical Competences.

Jaeger offers a comprehensive and efficient range of services and products. With our modern and versatile machinery, our highly qualified employees meet technical challenges. Of course, our machinery and systems are continuously maintained and upgraded. To ensure a high level of production reliability, all of our processes are designed with redundancy.

## **Our production competences**

Weaving, braiding, refining/finishing, dyeing, die-cutting, cutting, extruding, laminating, thermoforming, coating.

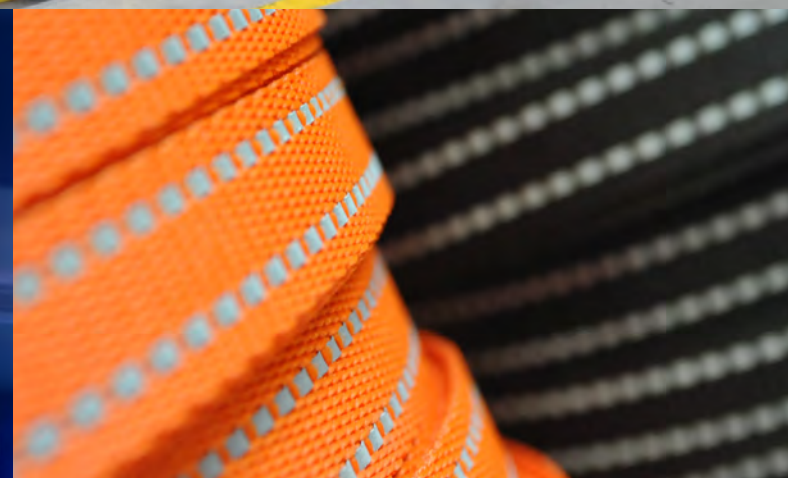

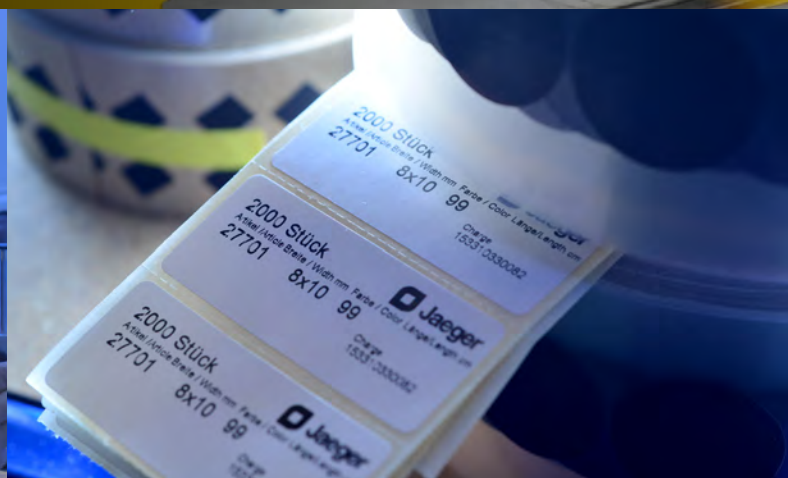

# Reliable logistics. Certified Quality.

Regardless of whether you produce in Europe, America or Asia: Our logistics ensure optimum availability. At our head-quarters in Germany we have more than 10,000 products in stock for you.

Production downtimes cost time and money. Because of this, we do everything possible to ensure immediate and dependable deliveries to you.

All products leave our warehouse with a unique batch number with which the production process can be fully tracked at any time. This ensures reliable reproducibility of the specification.

Our integrated management system takes into account the requirements of ISO 9001, ISO 14001 and ISO 50001. Quality management is an active principle of our business policy. Meticulous examinations from the receipt of goods up to the finished product characterize our continuous quality assurance chain. Our products are also certified.

# Visitec. Passion for innovation.

Product development is a central topic for which we use many resources. Requirements and markets are changing increasingly quickly. For us, this is a continuous stimulus for new developments as well as optimization of our existing products. Extensive know-how and development potential enable us to cover the wide field of technical textiles with innovative solutions. These include exclusive developments.

If necessary, we involve external development partners, perform customer trials and create our own test rigs. Our spectrum includes prototypes and pilot series as well as testing alternative and ecological materials and new combinations of materials.

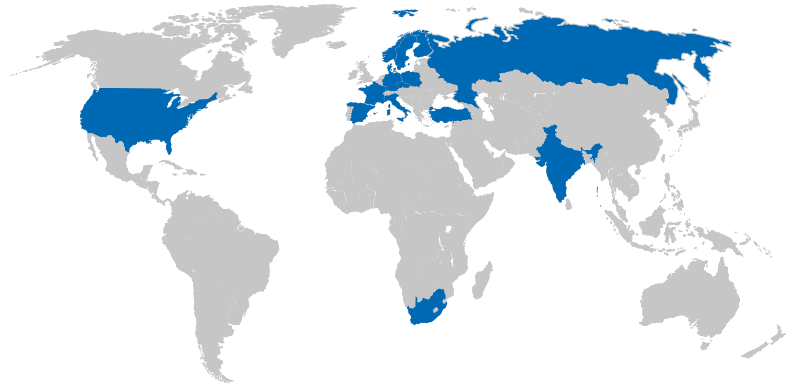

In our modern test centre in Wuppertal we offer you a wide range of testing services. Our test equipment is continuously checked and calibrated and therefore provides a secure basis for the performance and certification of the required tests.

Protect. Strengthen. Innovate.
